Pray, Make a Difference...

Seeds of Change....

As those who seek to see the Kingdom of God spread in the rural areas of Zambia and further afield, one of the things I believe we must do is to sow liberally.

So far this year we have followed that strategy, inspiring people, training people and helping them to see the potential that God has for them.

You then wait to see what shoots of life start to emerge from the ground.

The situation is this, we have many shoots of life, some strong, some very weak. However, they all need some tending, some encouraging and some training to help them to grow.

The theme of prayer for this month is to cover this process in as much prayer as possible. We are looking for growth, but not wild unchecked unsustainable growth, but consistent growth that produces the fruit of transformation and a strong root of the Gospel for many generations to come.

We simply need more people, more of God and more finances to allow this to happen. Jesus commanded us to ask for more labourers, lets do so.....

Jon & Judith

• Pray for Sly whom I met in Livingstone just 3 weeks ago. He is hoping to begin the Life! Initiative in northern Botswana. His 2 friends Keagan and Bernard are in Luderitz (Namibia) and Katima Mulimo (Namibia). Pray for them, their lives, their provision and also that God would give them vision for their areas as they think about what they heard at the Lusaka Conference in July.

• Pray for people like Joseph (North Western Zambia), Enwell (near us in Mkushi) and others who are thinking about beginning the Life! Initiative in

their own areas. This is a key thing to pray for. People are needed!

• We need more people and finances from here in Zambia to allow us to spread the work and train people effectively.

• Continue to pray for people like Peter, Vincent, Cornelius and Augustine as they seek to take the work forward in their own areas. Nchelenge saw some grass roots training happen a month ago, the other two areas are slated for this month. Pray that the turn out is good and that people catch the vision.
